Apkaimes mērogs / Neighbourhood scale

Pagalma mērogs/ Courtyard scalez

robeža/ District border

Baznica / church

Pagalms atrodas starp dzīvīgām ielām ar aktīvu sab. transporta infrastruktūru/ The site is enclosed by two busy streets, public transport infrastructure, which contributes to the liveliness of the area and availability;

Teritorijā ir neomulīgi, nedroši atrasties apgaismojuma trūkuma dēļ, tā mēdz piesaistīt nevēlamus apmeklētājus/ Dark surroundings on site due to lack of street-lights contribute to feeling unsafe, also contribute to unwelcome behaviour;

Nelīdzenais reljefs ir rosinoša vietas raksturiezīme, seguma trūkums apgrūtina teritorijas ērtu izmantošanu/ The uneven terrain is both inviting for activy, also troublesome regarding surface stability

Teritorija ir pašvaldības īpašums, ir atvērta visiem, bieži tiem izmantota kā īsceļš, tiek piegružota; Since the site is a public property, it is often used by nearby citizens and bypassers as shortcut; is often poorly kept and littered;

Pagalma estētisko kvalitāti degradē pussabrukušās koka celtnes blakus esošajās teritorijās/ The aesthetic of the site is compromised by degraded property on a neighbouring plot of land (the wooden shacks);

Pagalms ir labi apsauļots, lielāko dienas daļu saņem saules gaismu/ The site is positioned well regarding the sun-path - it is well lit throughout the day.

RESIDENT'S INVOLVEMENT, APPROVAL IN PUBLIC DISCUSSION

RICH TERRAIN

GREENERY ON SITE

LIVELY NEIGHBOURHOOD

FAVOURABLE POSITION REGARDING INSOLATION

LEGAL STATUS OF SITE - PUBLIC SPACE IN A RESIDENTIAL BACKYARD

LACK OF INFRASTRUCTURE (CLEAR SLATE)

DUAL FUNCTION OF RESIDENTIAL BACKYARD AND TRANSIT PATH

MUNICIPALITY SUPPORT - FUNDING

IDEAS FROM YOUNG SPECIALISTS TOGETHER WITH EXPERIENCED MENTORS

IMPROVEMENT IN RESIDENT'S FEELING OF SAFETY, BELONGING TO SITE, COMMUNITY. (CURRENTLY DISTANCED, NEGATIVE FEELINGS)

INCREASE IN TRUST FOR MUNICIPALITY, POSITIVE CHANGE

limited funding - may cover only basic needs

RESIDENT'S EXPECTATIONS TOGETHER WITH DISTRUST IN POSIVITE CHANGE AND POSSIBLE LACK OF FUNDING

LACK OF AUDIENCE FOR ACTIVITIES ON SITE (ALLEGEDLY NOT MANY CHILDREN, YOUNG PEOPLE NEARBY)

Main challenge

Create an environmental design that would attract a diverse audience (attract and audience at all), make the site a lively place for the eldery, youth, children and their parents to enjoy together

A sense of community

Design tasks and strategy

Uzlabot drošības sajūtu pagalmā ar apgaismojumu/ Increase safety of site by adding street lights

Maksimāli saglabāt esošo reljefu un izmantot to dizaina izstrādē/ Perserve the terrain as much as possibl ans use it in the design pocess;

Nodalīt dažādas zonas dažādām aktivitātēm dažādām mērķauditorijām/ Assign different areas of function for different audiences

Izveidot jaunu pieeju no kaimiņu dzīvojamo ēku iekšpagalma, attīstot komunikāciju / Create a new passage from neighbouring property to enhance communication

Papildināt esošo veģetāciju ar košumkrūmiem, augiem un kopienas dārzu / Enhance the existing vegetation with decorative shrubs, plants and a community garden;

Izstrādāt labiekārtojuma programmu – atpūtas soliņi, atkrītumu tvertnes, sporta un mājdzīvnieku pasteigu funkc. elementi/ Design a programme for public amenities – benches, litter bins, etc.
